HIGH FASHION SURFACE DESIGN

AUDREY LANE

Uncomplicated and simply beautiful, Audrey Lane evokes high-design while enticing your imagination. Their products are made of high-end porcelain and give the look of natural materials without the upkeep of stone, wood or metal. Browse their exclusive patterns or create your

own. Design a truly bespoke tile surface with Audrey Lane's color and scale customization capabilities. Their in-house designers are prepared to collaborate with you on your projects. Audrey Lane is your opportunity to discover what's possible in the world design.

HOW IT'S MADE

In case you're wondering... They start with large format luxury porcelain tiles, then have lots of fun playing with color and finishes. The color pallet currently consists of 97 options including wood looks, metal, natural stone, and solid colors. Once the desired products are selected, Audrey Lane will fabricate into the pattern of your choice. For mosaic size patterns, the material is mesh-mounted and faced with clear tape. For custom projects, Audrey Lane offers a made-to-fit installation, or can provide a diagram for easy installation. See more about the possibilities with Audrey Lane on page 2.

1. Go to audreylane.com and select Custom Design Tool
2. Select your Design
3. Select your Scale
4. Select your Color Palette and place your colors in a blend or repeating pattern
5. Print your Selection Sheet and/or high resolution image

INTRODUCING... ALEX TURCO ART DESIGNER

With a perfectly balanced mix of beautiful photography and multimedia graphics coupled with hand processed materials make Alex's work an artistic breakthrough bringing to life an elegant art form.

Offering the client the rare opportunity to actively share in the creative process with the artist, Alex Turco's Decorative Art Panels are custom made to meet clients requirements in terms of size, color, and finish.

Conceived to lavishly style interiors and to rejuvenate the concept of living well, the Canvas Art Panels are a valuable accent to tastefully created atmospheres.

The Aluminum Art Panels are spectacular, one of a kind statements fashioned for either indoor or outdoor use.

Alex Turco's panels are distributed worldwide from his headquarter in Italy and in the United States; partnering with interior design and

architecture firms, business professionals has proven the versatility of the panels allowing them to meet the expectations of the most demanding clients.

In this new art form for the interior design world, Alex's passion is to define concept as art for life!

"To live art as it has never been lived until now, taking it where it has never been before with passion and innovation"
- Alex Turco (alexsturco.com)

UNICA IS **UNIQUE** OCEAN LUXURY TILE COLLECTION

Simple lines, dusty colors and precious materials are the key points of OCEAN, a collection that born from a perfect equilibrium between artisanship and technology innovation.

Sumptuous and metallic materials are combined with portions of matt surfaces creating different geometric and contrasting patterns which can be used as a highly visual impact in domestic or public spaces.

Available in two formats – 60x120 cm (24"x48") and 20x20 cm (8"x8") – OCEAN is a clear example of the creative and artistic side of porcelain stoneware.

LIVE YOUR STYLE

Woven vinyl flooring from 2tec2 is a favorite pick amongst talented architects, interior designers and contractors worldwide. 2tec2 is a synthetic floor covering composed of vinyl yarns with glass fiber core, woven together on jacquard looms and finished with a homogeneous vinyl backing, reinforced with a non-woven glass fiber. Thanks to its unique composition, this superior flooring is resistant to wear and adheres to the highest quality standards.

For high traffic locations, 2tec2 delivers all of the advantages of woven vinyl – durability,

hygiene and chemical, water and stain resistance – combined with the visual appeal of woven textiles. In brief, a durable solution for commercial or residential projects, both indoors and outdoors.

2tec2 was launched in 2005 and is designed & woven in Belgium. The brand is part of a family owned company with a tradition in the textile industry. 2tec2's goal is to provide innovation into today's commercial floorings proposition with a new hybrid type of flooring. The woven vinyl and fiber glass flooring is remarkably robust, very functional and yet elegant.

JAMIE BECKWITH COLLECTION

Jamie Beckwith is a leading trendsetter in the realm of luxury interior design and the founder and design visionary behind the Jamie Beckwith Collection®. This innovative offering of prestige wood surfacing treatments for both floor and vertical surfaces forever changes the concept of how wood can be used in residential, commercial, and corporate environments. Since establishing Beckwith Interiors design practice in 2006, the celebrated interiors authority has achieved a national presence, renowned for her discerning eye and sophisticated interiors for both commercial and residential clients from coast to coast. The Jamie Beckwith Collection® is the designer's signature transformative media dedicated to expressing the perfect balance between creativity and design, art and functionality. Comprised of the Enigma®, Projection™, Mosaic™, and Etched hardwood tiles series, this directional application of organic materials with resonance is animated by the designer's appreciation of beauty within art and nature. Inspired by the traditional warmth of wood but with an inventive and contemporary interpretation of ornamental patterns, every surface becomes a blank canvas to explore dimension, structure, shape and light.

The Jamie Beckwith Collection® embraces the artisans' ethos of quality and attention to detail. Manufactured within the Beckwith companies own production facility in Nashville, Tennessee, each product eschews the concept of conventional uniformity – instead celebrating the individual interpretation of the natural beauty of each piece through expert handmade craftsmanship.

The Jamie Beckwith Collection® presents the strength of nature combined with the heart of design.

HANDMADE TO TOUCH THE SOUL

Mosarte is a Brazilian company synonymous with innovation in specialty coverings and awarded for design. Mosarte was founded in 1995 and since then they have been working on the basis of expertise and talent of our team to create products that enhance rooms, making them unique and pleasant to live in.

Freedom is at your hands...

Semplice + Simples is a breakthrough system from Mosarte that facilitates the layout of special coverings. This new technology brings in the back of each piece an extremely resistant adhesive, spaced from the wall by deformable spheres. So it is possible to move this piece during installation, before full adherence. The result is a more dynamic project done quicker, cheaper and in a cleaner manner.
