

**ALL THE CUTS YOU NEED**

# BULLNOSE CUSTOM SIZES MOSAICS

We are a fabrication company that specializes in customizing tile to meet your specific sizing needs. Alongside cutting tile, we also fabricate trims and mosaics to match your style. We strive for precision in everything we do!

This includes matching your trims and mosaics to the exact shade of the installed tile. We offer custom bullnose in many different sizes and can even quote you a custom size!

## YES! WE CUT IT ALL

Here to service all your cutting needs, we can cut any tile from a 24"x48" down to a 2"x2" mosaic. Stair tread, bullnose, and plank cuts are available.

## FAST LEAD TIMES

We have an average of two-week lead times for most orders once material is received for cutting (subject to production capacity).

## HAND-BUILT MOSAICS

We offer hand-built mosaics in sizes down to a 2"x2". We use a UV glue which dries instantly, ensuring no shift or movement once constructed.

## MARKETING YOUR WAY

Let us create your custom marketing materials. Contractor boards, binders, custom chip sets, and showroom displays are only a few examples.
